

Gold King Mine Spill 08/17/2015 – 1300 CDT Bullets

The City of Farmington will hold a Community Meeting at 6 pm MDT on August 17, 2015. It is expected that Carl Edlund, Ronnie Crossland and Dr. David Charters will attend the meeting. Dr. Charters will present information on EPA's sampling findings.

EPA is identifying remaining short and long term issues and develop options for resolution.

Morningstar and Farmington are completing the connection between their water systems. Current plans are to complete this task by 2:00 pm MDT on August 17, 2015. The water system operators will complete the connections and operate the system once functional.

EPA is coordinating with NMED on a letter to private water well owners to share the results of the sampling of their wells.

EPA continues collaboration with NMED on their Drinking Water Bureau's criteria as discussed in the "DWB recommendations for removing advisory to refrain from drawing river water" document. EPA requested that NMED provide clarification on some elements of their recommendations.
